

OUTDOOR PRODUCTS

The tremendous flexibility of LK Outdoor Products's SmartShade™ Lattice lets you select the amount of shade your patio cover provides, from 60% to 40% to total shade. You can even combine them to give your patio area an ideal amount of sun or shade for your personal comfort and lifestyle.

*Example assumes 2" x 2" lattice tubes. Rafters and beams are taken into consideration when calculating the shade coefficients.

1 OPEN DESIGN

- Traditional style and beauty
- Adjustable shade
- Improved air ventilation

2 SOLID DESIGN

- Complete Solar Protection

End Cut Options

Beams and rafters help define the overall visual impact of your new LK Outdoor Products SmartShade™ Lattice cover. With four different end cut options, there is an enormous range of design possibilities.

Scallop

Bevel

Miter

Corbel

Warranty

Our SmartShade™ Lattice comes with a transferable Lifetime Limited Warranty. Our product is guaranteed not to peel, blister, flake, chip, split, rust, or crack for the lifetime of the original property owner. We want you to enjoy your new lattice shade cover, not worry about it.

Specifications

SmartShade™ Lattice is engineered to meet or exceed most local, state, and national building codes. The components feature seamless consistency among all components giving homeowners a fashion sensible backyard environment.

Teflon™ Surface Protector

Teflon™ surface protector helps protect the space you've created for you and your family. Products developed with Teflon™ surface protector provide improved durability, dirt pickup resistance and easy cleanup. Exterior coatings that carry the Teflon™ brand contain high quality ingredients designed to create the best conditions for a beautiful and enduring surface. Teflon™ is a trademark of THE CHEMOURS COMPANY FC, LLC used under sublicense by LK Outdoor Products.
